TOASTMASTER

Eric Gill Toastmaster

I have been a professional toastmaster since 1994 and am a member of the prestigious National Association of Toastmasters and Founder Fellow of the Executive Guild of Toastmasters and Town Clerks.

I am a friendly red coated toastmaster making all the difference to your big day. His delicate tact and specialised knowledge of procedure, allows him to take control of the proceedings, thus allowing everyone to relax and enjoy the occasion.

First impressions are everything, and from the moment the great joyous family and guests as they arrive, the toastmaster is setting a high standard for the day. Helping with the group photographs is only also helps with greeting the speakers at the wedding itself; and announces the bride and bridegrooms departure from the banquet suite. A good toastmaster will offer that service and be delighted to assist in any way he can. Use him, he has all the experience, so why not tap into it?
